PROFESSIONAL PROFILE:

Full Stack Developer with experience in designing, developing and maintaining web applications. Working on projects covering both Front-end and Back-end, standing out in the implementation of efficient solutions and the optimization of the user experience. My experience includes creating mobile-first applications, web pages, and developing APIs, with a focus on quality, problem solving and continuous improvement. With a solid technical background and passion for innovation, committed to delivering exceptional results and adapting to new technologies to contribute to the success of challenging projects.

EDUCATION:

FULL STACK DEVELOPER CORE | OCT 2023 - MAY 2024 | DIGITAL NAO X TECMILENIO
· Development and optimization of user interfaces and systems in the Front-end, using modern technologies to ensure a fluid and attractive user experience.
· Implementation of logic, server management and database management in the Back-end, ensuring the integrity and efficiency of the applications.

DEVELOPER FULL STACK | DEC 2022 - SEPT 2023 | EGG COOPERATION
· Acquisition of programming and development skills with Java, MySQL databases and React.js, focusing on the creation of robust and scalable solutions.
· Application of object-oriented programming principles, exception handling and establishment of database connections to improve the functionality and stability of the software.

WEB DEVELOPER FRONT END | MARCH 2022 - JUNE 2023 | EIDOS GLOBAL - ACCENTURE
· Develop advanced skills in Front-end technologies to improve the creation and design of user interfaces.
· Implement solutions using HTML, CSS, JavaScript and Bootstrap, and manage code versions with GitHub to ensure efficient and organized delivery of projects.

WORK EXPERIENCE:

DEVELOPER FULL STACK | IGROWKER | JUNE 2024 - PRESENT
· Developed Mobile-First web applications, participating as Front-End Developer in the Bariló and Flowento projects, and as Back-End Developer in Mindup. Implemented intuitive and responsive user interfaces in the front-end projects, applying conditional logic, event handling, and reusable components. On the back-end, developed robust RESTful APIs with Java Spring Boot, managing server logic, relational and non-relational databases, and facilitating integration with the front-end. Optimized code following good development practices, ensuring scalability and performance across all projects.
· Technologies used: React JS | Node JS | PostgreSQL | RESTful APIs | JavaScript | TypeScript | Java | Spring | Tailwind CSS | Figma | GitHub | Vercel | Render.

DEVELOPER FRONT END | MAKISAN TECH | JUNE 2023 - DEC 2023
· Development and maintenance of applications and websites, ensuring the quality and continued functionality of the products.
· Improving the user experience and optimizing project performance by implementing best development practices and advanced optimization techniques.
· Technologies used: Java | Spring | JavaScript | Bootstrap | HTML | CSS | GitHub.

TECHNICAL KNOWLEDGE:

Java | React JS | JavaScript | Astro | Node JS | Spring MVC | Microservices | POO | Principios SOLID | Postman | APIs RESTful | Bootstrap | Tailwind | MySQL | TypeScript | HTML | CSS | GitHub | Vercel | Figma | WordPress | Trello | Notion | Miro.

SKILL SET:

Agile | Systems Management | Process Optimization | Customer Service | Quality Control | Technical Support | Effective Communication | Adaptability | Attention to Details | Time Management | Creativity | Logical and Analytical Thinking | Teamwork.

LANGUAJES:
· Spanish: Native.
· English: A1-A2.
